

GREASE CARTRIDGE ADAPTER

“NEW” Grease cartridge adapters are designed to take advantage of readily available grease cartridges. These cartridges are available in most commonly used NLGI grades at the retail or wholesale level. These brass adapters are ideally suited for operation with **LUBE DEVICES, INC.** Precision metering pumps **PMP100** (air operated Bulletin F1837-1) and **PMP200** (motor operated Bulletin F1837-2).

STANDARD MATERIALS:

- Brass construction
- Buna N Seals

OPERATING CONDITIONS:

- Maximum working temperature up to 120°F (48.9°C)

Insert the “follower disc” until it touches grease (do not force). The “follower disc” is required to exclude dirt and prevent air holes in the grease.

Leave the disc “line” extended and free as shown and it will give a visual indication of how much grease is remaining as the “follower disc” moves down the cartridge. The “line” is also used to retrieve the “follower disc” for reuse when the cartridge is empty.

GCA100 Adapts the nominal 3 ounce (85g) standard cartridge size 1.31 (33.27mm) dia x 6.00 (152.40mm) long

GCA200 Adapts the nominal 14 ounce (397g) standard cartridge size 2.12 (53.85mm) dia x 9.00 (228.60mm) long

- Patent Number 6,149,037
